ADVIA Centaur XPT System*

Global Assay Menu

The ADVIA Centaur® XPT Immunoassay System is engineered to provide timely, reliable results with continuous operation to meet the immunoassay workloads of the most demanding laboratories.

- Comprehensive disease-state testing menu includes over 70 assays, ranging from cardiology and oncology to reproductive endocrinology, thyroid, and extensive infectious-disease tests, including HIV
- Versatile acridinium ester (AE) technology allows the continuous introduction of new, innovative assays
- No sample carryover, particularly critical for ID testing
- The same ready-to-use reagents are used across all ADVIA Centaur systems

* Due to local regulations, not all products are available in all countries.
Not available for sale in the U.S.
